QCMQA PROJECTS 2017- 2020

Project Report Reference: 2019-1056 Facilitation of the QCMQA Network FY February 2017 – FY February 2020

Date: 30 March 2023

Benefit for Industry

QCMQA believes that these projects have formed an integral part of the learning and education of not only the business owners but also of the staff involved. Projects like these that are supported by AMPC give the small slaughterhouse operators an opportunity to grow and gain education in the small- scale business they operate. In some instances business owners close the business to enable them to attend these project which indicates the importance placed on these events by these business owners.
